After further debate unfinished business was laid aside and the veto mes-

sage was taken up.
Mr. Sherman moved to refer it to the committee on foreign relations. In the debate as to reference, the chair held that reference would not carry out the spirit of the constitution, inasmuch as bitls referred were sel

Debate ensued, and Mr. Morgan

bill opposed the spirit of the treaty, and that the Chinese government had a perfect right to regard it as a violation. While we should regard the interests of California's citizens, we should not pass a law that is a disgrace to the statute books and antagonistic to the letter and spirit of the constitution

Mr. Garland contended that the committee could give no further light on the matter. The only question was whether the bill should or should not pass over the veto.

Mr. Morgan said it appeared that the Chinese minister had been allowed to make suggestions in regard to the pending legislation, and the president accepted them in vetoing this measure. It was strange that that the ideas of the Chinese ambassador should have more influence with the executive than the majorities of both houses of congress. He supposed it was simply an effort to smother the bill.

Mr. Bayard contended that reference was wholly and utterly useless. If the bill was to die let its friends say so, but do not undertske by reference to change its features. All that could be done now was to vote whether to make it a law over the veto. He objected to the language used in the message, saying there was no justification for it, either in fact or committee traditions of communication and dignified and respectful con-

Under a ruling of the chair the paragraph transferring war claims in the quartermaster's department to the court of claims, was stricken out, but a paragraph was added prohibiting the use of funds appro-priated by the bill for examination of such claims. Provisions will, it is understood, be made for this in the "sundry civil" bill.

The bill as passed by the house provides that officers may retire after thirty-five years of service, and shall Mr. Bayard said there was great excitement in California and he wanted at the age of 62.

A communication was received from the president transmitting the report of the secretary of state in regard to the resolution of March 27 as to the American citizens in British prisons, The report cites British parliament-ary action in the premises in March, 1881, and gives Blaine's (then secre-

Governor Nance Has His Legislative Call Ready for April 26th.

LINCOLN, April 5 .- The city election passed off yesterday more quietly than had been anticipated, owing to the somewhat heated state of feeling prevailing. A pouring rain came down all day long, making navigation about the polls exceedingly unpleasant, and interfering somewhat with the ordinary good nature of the work. It was owing to this attempt of Jupiter Pluvius to intimidate the voters that the total vote was so light as it were such as enter into all elections where personal pride, under the guise of the "good of the city," "axes to grind," and "sewers to put in," are the motives which cause men to do the dirty work of the ward politician. Not only that, but there was a call for a citizens' convention, signed by many of the leading men of both parties, to place in nomination a procession to the grave.

A number of newspaper men from the Republican valley who have been interviewed by your correspondent lately say that James Laird is sure of getting the congressional nomination if the state is redistricted, from the western district. There is evidently going to be plenty of competition on

Kansas City, April 5.—The republicans achieved a complete triumph at the municipal election here yesterday. Bullene's majority for mayor is 409.
